Career Objective

Computer Science undergraduate with interests in web development, AI, and software engineering. Skilled in Python, React.js, and SQL, with experience developing academic projects and participating in hackathons. Eager to learn, solve real-world problems, and contribute to a collaborative development team.

Education

Kalasalingam Academy of Research and Education

B.Tech in Computer Science and Engineering — CGPA: 9.52

2023 – 2027

Tamil Nadu, India

Sri Chaitanya Junior College

Higher Secondary Education — Percentage: 97.4%

2021 – 2023

Amalapuram

Z.P.P.H.S

Secondary Education — CGPA: 10.0

2020 – 2021

Ainapuram

Experience

Research Student

Jul 2025 – Present

MulticoreWare Inc

- Explored the nuScenes dataset and its radar, LiDAR, camera, and annotation components.
- Studied sensor fusion concepts and radar-to-camera mapping workflows using Python tools.

Projects

NexCareer – AI-Powered Career Development Platform | *Next.js, React.js, Clerk, Tailwind CSS*

GitHub

- Developed NexCareer, an AI-powered career development platform using Next.js, Prisma, PostgreSQL, Clerk, and Gemini AI.
- Built ATS-friendly resume generation, AI cover letter creation, industry-specific assessments, and performance analytics modules.
- Implemented secure authentication, server actions, database integration, and responsive UI for a complete end-to-end user experience.

Green Track – Environmental Complaint Tracking System | *Python, Flask, SQLAlchemy, SQLite*

GitHub

- Developed a web platform to report and track environmental complaints.
- Implemented authentication, role-based dashboards and secure image evidence uploads.

Achievements

Smart India Hackathon 2025 – Grand Finale Winner

Best Performer 2025 – Kalasalingam University

First Rank in B.Tech First Year – Merit Student Award (CGPA: 9.41)

Secured 3rd Rank in the CSE Department

Co-Author of research paper “PEARL: Prompt Engineering Pedagogy for Teaching and Learning of Specific Technologies” – ICTIEE 2026 [Article]

Technical Skills

Languages: Python, C++, JavaScript

Frontend: HTML5, CSS3, React.js, Next.js

Backend: Flask

Databases & ORMs: SQL, Prisma

Tools: Git, GitHub, VS Code, PyCharm

Domains: Web Development, Generative AI

Certifications

Introduction to Generative AI – IBM SkillsBuild

Getting Started with Artificial Intelligence – IBM SkillsBuild

Claude with the Anthropic API – Anthropic

TCS iON Career Edge – Young Professional

Oracle Cloud Infrastructure – Oracle
